

BRINGING FINANCIAL RESULTS TO
SUSTAINABILITY

Energy Management

Energy Management Services monitor, predict and reduce energy consumption resulting in cost savings and increased asset valuation.

Canem's Energy Management Services

Canem addresses corporate business needs by managing environmental influences and expectations. Canem's quality control procedures ensure that the solutions we provide deliver maximum tenant comfort and superior reliability.

- **The top 3 reasons to choose Canem:**
1. We spend time to understand your business and your specific energy management goals
 2. We become part of the team, bringing knowledge and experience to maximize the energy management savings
 3. We create project-specific standards, schedules, quality control, and reporting based on your requirements

Energy Management

Electrical Contracting · Information Management
Building System Integration · **Green Data Centres** · Energy Management
Security & Risk Management · Lifecycle Services · **Rollouts**

The Canem Approach

Canem works with corporate clients in collecting key indicators about their operations and financials. This six-step process includes:

1. Identifying the challenges and business imperatives
2. Recognizing misalignment between processes and business imperatives
3. Identifying priorities
4. Realignment of business processes through the development of KPIs, scorecards and analysis of data
5. Reviewing and proposing possibilities and solutions
6. Developing the strategic plan

Canem's Energy Management Benefits

1. Single point of contact responsive to your needs
2. Clear understanding of our progress and status
3. Energy audit reports showing you the metrics that matter
4. Customized service and maintenance program designed to fit your needs

Energy Management Services include:

- Annual maintenance
- Quick turnaround break-fix services
- Preventative maintenance

Energy Management helps you save dollars, by making sense of your building.
